

## WHO IS KNAPP ENGINEERING?

- Rockwell Automation System Integrator
- Experienced In-House UL508A Panel Shop
- Trained ISA CCST Engineers & Technicians
- Member of International Society of Automation
- Preferred XL Reporter System Integrator

## INDUSTRIES SERVED

- Water Treatment
- Wastewater Treatment
- Industrial Automation
- Landfill Monitoring & Control
- Machine Tool
- Ground Water Remediation
- Industrial Wastewater Processing

## ENGINEERING

AUTOMATION AND CONTROL SYSTEMS

### KNAPP ENGINEERING, INC.

has been serving the municipal and industrial markets throughout the Northeast since 1989. We provide engineered control systems by integrating process instruments, controllers and interface devices for process automation, equipment monitoring and control, alarm reporting and data retrieval.

We maintain a staff of engineers, trained technicians and an in-house UL508A Panel Shop to support the integration of control systems and project management solutions for the various industries we serve.
