AUTOMATION AND CONTROL SYSTEMS

ENGINEERING AUTOMATION *MANUFACTURING SOLUTIONS*

Knapp Engineering, Inc. delivers comprehensive engineering and industrial automation solutions; from electrical design and control-panel development to PLC/HMI programming, robotics, motion control, machine vision, safety systems, installation, and startup.

Our integrated, systems-level expertise allows us to develop flexible, reliable automation tailored to each customer's unique manufacturing needs.

Whether you're modernizing existing equipment, developing a new automated process, or troubleshooting a complex system, Knapp Engineering provides the technical expertise and practical solutions to improve productivity, quality, reliability, and changeover efficiency.

- ✓ Machine Control Design & Implementation
- ✓ PLC, HMI, SCADA, Troubleshooting & Implementation
- ✓ Machine Troubleshooting
- ✓ Instrumentation Calibrations
- ✓ Quarterly, Semi-Annual, Annual Instrumentation Calibrations & Servicing
- ✓ Control Panel Troubleshooting, Design, and Fabrication
- ✓ Control Systems Integration

KNAPP ENGINEERING, INC.

INNOVATIONS IN INDUSTRIAL MANUFACTURING

Our Services

- ✓ UL 508A Certified Panel Shop
- ✓ Industrial Automation & Controls
- ✓ Motion Controls & Servo Systems
- ✓ Robotics & Automated Equipment
- ✓ Machine Vision & Quality Automation
- ✓ Electrical Engineering & Panel Design
- ✓ Pneumatic & Electro-Mechanical Controls
- ✓ Safety Systems & Machine Safety
- ✓ Industrial Networking & Communications
- ✓ Water & Wastewater Automation
- ✓ Startup, Commissioning, Testing, & Troubleshooting
